## WHY choose QUARTZ

- Uniformity
- Wide Variety of colours
- **Environment Friendly**
- Requires less maintenance
- More Durable
- Antibacterial Properties
- Low Pricing

## **Key Advantages**

Practically zero porosity, preventing the absorption of water or other liquid.

High hardness and resistance to abrasion and scratching.

Resistant to fats, oils and acids from foods: lemon, tomato, wine, etc. Great flexural strength and impact resistance.

Easy to clean and maintain.

Quartz does not need antibacterial chemicals, since the absence of pores prevents bacteria acting as a natural bacteriostatic.

## Areas of application

Indoor Wall Cladding

Kitchen Countertop

Vanity Top

Table Top

Pagantian Dook

Staircase
